LP LAW | ADVOGADOS ASSOCIADOS

INTERNAL INVESTIGATIONS

Our multidisciplinary team has the experience and skills necessary to conduct internal investigation procedures, especially those arising from the Ethics/Whistleblower Channels put into place to support the effectiveness of Integrity Programs. We use specific methodology, applying advanced technology and safe protocols of investigations and best practices; thus, reaching results in compliance with legislation and organizations.

We act both as a support for internal investigation teams and in investigations outside the organizations, seeking to ensure a quick response combined with a safe procedure.
